

LIGHT VIEWS

Hunter Douglas delivers an elegant shading solution that brings out the best in a room.

There is no substitute for the beauty of natural daylight. Ask any decorator or photographer what makes a room beautiful and desirable, they'll say it's all a matter of light. And not just any kind of sunlight, but the soft, diffused type that lends a room a gentle, ethereal glow. Helping you achieve this glow for your space every day are the Hunter Douglas Silhouette® Window Shadings.

The Signature S-Vane™ – soft fabric vanes suspended between two sheers – diffuses softened light deep into a room, and can be tilted to suit desired levels of privacy while maintaining UV protection.

What's more, Hunter Douglas Silhouette® Window Shadings are designed with a patented weave that eliminates dizzying moiré effects, allowing them to deliver privacy as well as clean, undisturbed views at one and the same time.
